Backend Developer Job Description

Company: Cube Communications Ltd

Application Deadline: 15 January 2026

About Us

Cube Communications Ltd is a dynamic and fast-growing events and experiences agency that creates memorable, high-impact moments for brands, institutions, and communities. From global conferences and brand activations to festivals and private experiences, we deliver strategic, creative, and flawless execution.

Job Summary

We are seeking a skilled Backend Developer to design, develop, and maintain scalable backend systems and APIs that power our web and mobile applications.

Key Responsibilities

- Design, develop, and maintain backend services, APIs, and databases
- Build scalable, secure, and high-performance server-side applications
- Integrate third-party APIs and external services
- Optimize application performance and database queries
- Implement authentication, authorization, and data security best practices
- Collaborate with frontend developers, designers, and product teams
- Troubleshoot, debug, and maintain existing systems
- Write clean, maintainable, and well-documented code

Requirements

- Proven experience as a Backend Developer or similar role
- Strong knowledge of backend languages such as PHP, Node.js, Python, or Java
- Experience with RESTful APIs and server-side architecture
- Strong understanding of SQL / NoSQL databases
- Familiarity with Git or other version control systems
- Understanding of security best practices

Nice to Have

- Experience with event platforms or large-scale systems
- Knowledge of Docker and CI/CD pipelines
- Experience with cloud platforms (AWS, GCP, Azure)
- Experience with mobile app backend integrations
- Familiarity with microservices architecture

What We Offer

- Opportunity to work on impactful and innovative projects
- Collaborative and supportive work environment
- Competitive compensation based on experience
- Opportunities for professional growth and learning
